

GETTING & STAYING CONNECTED

SOCIAL SUPPORT NETWORK GROUP EXERCISE

Difficulty level: Beginner

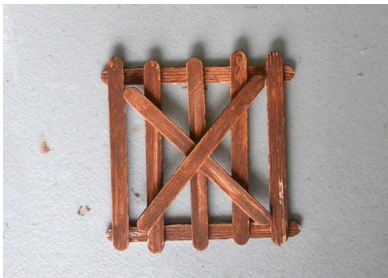

Team size: 4-5 people per team

Time to complete: 30 minutes

Things you'll need: Popsicle sticks, hot glue gun, glue sticks, moss or cotton balls

Things to do:

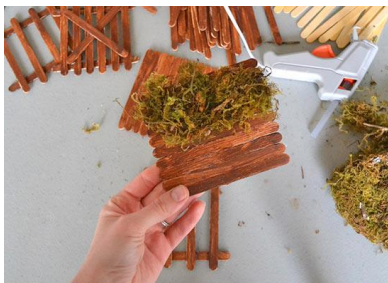

1) Starting with the back wall. Lay two popsicle sticks perpendicular to each other and glue six popsicle sticks in between them. To finish the wall, glue two popsicle sticks in an "X" shape over the back.

3. Now you need to make two roof pieces. Glue popsicle sticks side by side until you reach your desired size. Make another roof piece that is the same length.

5. The final step is assembling your barn. Use hot glue to attach the sides and the back. When the glue is dry, the three pieces should be able to stand on their own.

7. When they're secure, use hot glue to attach the roof to the barn.

2. Next comes the two side walls. Lay two popsicle sticks perpendicular and glue four popsicle sticks in-between them. Repeat this step, so you have two walls.

4. Use hot glue to attach moss to the roof pieces.

6. Complete the project by attaching the roof. Run a thick line of hot glue down a popsicle stick and attach it to the two roof pieces.
